

**Woonsocket Health & Rehabilitation Centre earns a
“Deficiency-Free” 2016 Annual Survey**

We are proud to announce that WHRC recently earned a perfect, deficiency-free 2016 annual survey from the Rhode Island Department of Health. The annual survey is a rigorous weeklong examination of every aspect of our facility and the services we provide. This is the third time in five years that WHRC has achieved a perfect survey—a great accomplishment given the variety and complexity of services our staff provides.

As always, this wonderful result is a testament to the compassion, dedication, and hard work of each and every staff member in every department.

Heartfelt thanks and congratulations to all!
